PMBOK® - Third Edition:
What's New in Project Management
Roger Parish, PMP

As the old Peter, Paul, and Mary song says, "The times, they are a changin'." The 3rd edition of the PMBOK has been out for several months now, and in October 2005, the PMP exam will be based on this edition. So what's new? Well, the answer is, "Quite a bit."

PMBOK 3rd Edition isn't just a reprint of the 2000 edition with some minor edits. It has, to a large degree, been rewritten. Many advances and changes in the way we think about project management have found their way into this edition— ideas that expand our view to encompass more than what has been traditionally referred to as project management.

This presentation is for anyone working in and around projects or programs, including project and program managers, mid-managers, and executives. Come see what's new, what's changed, and what's stayed the same. "For the times, they are a changin'."

SPEAKER BIOGRAPHY - Roger Parish, PMP, has over 20 years experience in IT projects and organizational development. In addition to being the author of the Prizm2™ project management methodology and two books, he is attributed with a number of advances in the field of project management.

Roger is the President of Spectrum Consulting Group, LLC in Beaverton, Oregon, and is a frequent speaker on a variety of software and project management related subjects. He is also an instructor for the PMP Exam Prep Course offered by the Portland PMI Chapter. His firm specializes in helping clients have successful, efficiently run projects and programs, as well as helping companies get the most out of their portfolio management systems.

Chapter Celebration!!

Come celebrate the beginning of our program year and the Olympia Chapter's formal acceptance as an official part of PMI. We've reduced the price of dinner as an incentive. We have planned a ceremony to honor Chapter Founders and Founding Members and ordered cake and balloons. BRING YOUR CAMERA...
